

MAXHUB WB05

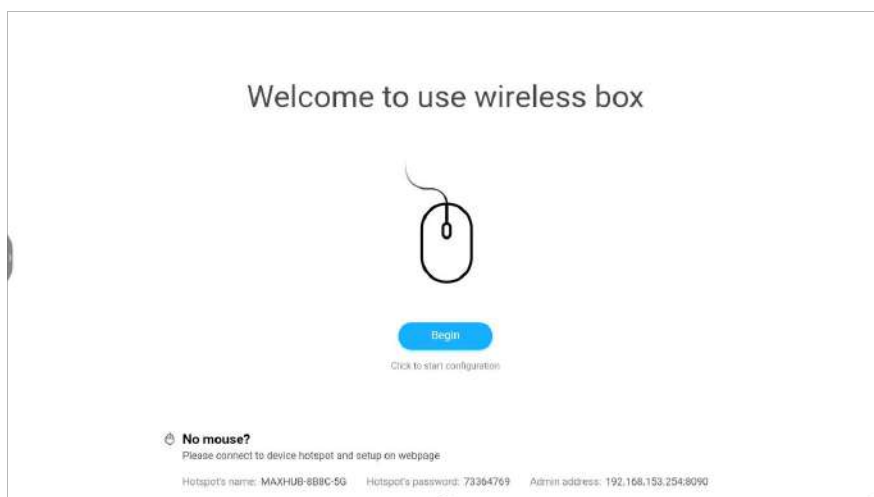

User Manual

◆ Setup guidance

A. Connect to device hotspot;

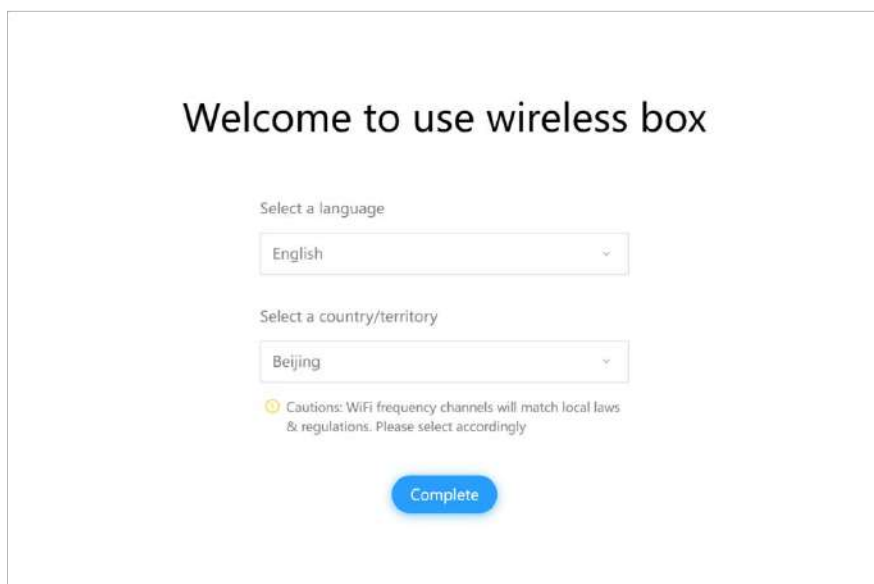

1. Connect to the hotspot displayed at the bottom of the screen;

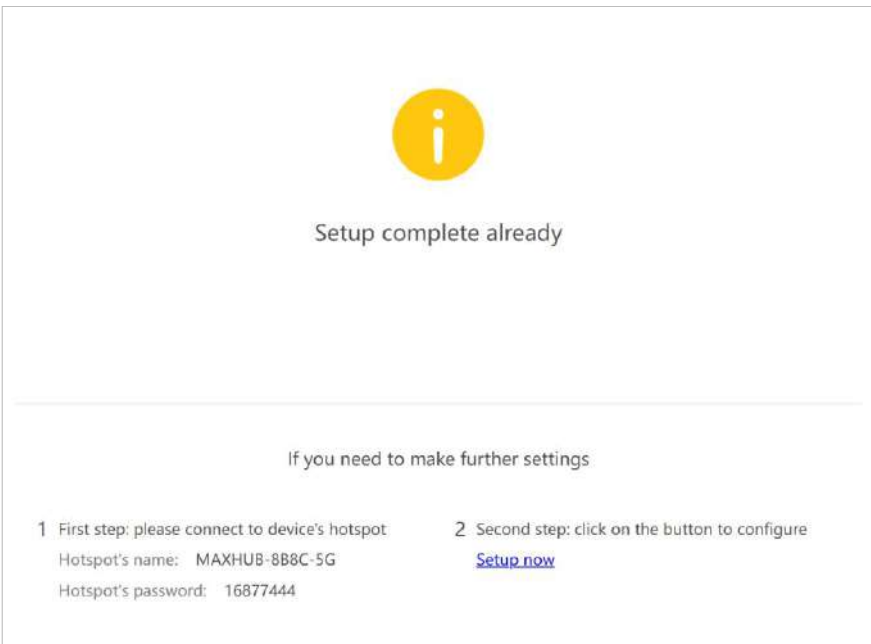

2. Log in to the Admin address;

3. Select a language;

4. Select your location;

5. After a restart, continuing setting up by clicking “Set up now”;

The screenshot shows a web interface with a yellow information icon at the top. Below it, the text "Setup complete already" is displayed. A horizontal line separates this from the next section, which is titled "If you need to make further settings". This section contains two numbered steps: "1 First step: please connect to device's hotspot" and "2 Second step: click on the button to configure". Under step 1, the hotspot name is "MAXHUB-8B8C-5G" and the password is "16877444". Under step 2, there is a blue link labeled "Setup now".

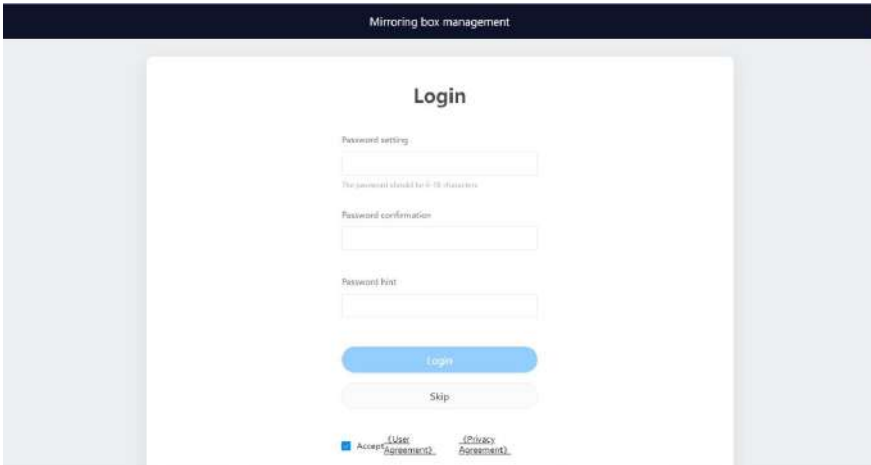

Setup complete already

If you need to make further settings

1 First step: please connect to device's hotspot
Hotspot's name: MAXHUB-8B8C-5G
Hotspot's password: 16877444

2 Second step: click on the button to configure
[Setup now](#)

6. You can set a password when you first log in or choose to skip;

The screenshot shows a web interface titled "Mirroring box management" at the top. The main section is titled "Login". It contains three input fields for "Password setting", "Password confirmation", and "Password hint". Below these fields are two buttons: "Login" (blue) and "Skip" (grey). At the bottom, there are two checkboxes: "Accept" (checked) and "Privacy" (unchecked), with links to "Terms" and "Privacy" respectively.
